rolling land. There are a dry dusty and sharp smells, taste is dirty. The area is wide and across. There are a series of structures at site. Temperature is warm and hot. Structures comprise some sort of series. One structure may be different from others. It appears to have some sort of down or underground component. One of structures has some sort of triangular component. Another structure has an around compound and is bent and leaning.

There is a square at side, something like (AO) [a company shed on a village plaza]. THERE IS A TOWER AND A DORM AT SITE. THERE IS AN AREA WHICH IS HOLLOW, DOWN AND UNDER. THIS AREA IS DARK AND DANK AND REALLY GIVES ME THE CHILLS. IT IS NASTY AND PROBABLY IS THE SAME AREA THAT produced THE STAGE II AI OF CONFINING AND SUFFOCATING.

ARE BODIES AT SITE, BUT THIS
DOES NOT DISTURB ME AND I GET
NO EMOTIONS FROM BODIES.
